Summary

I focus on transforming ideas into functional applications and delivering them through reliable, automated workflows. My hands-on experience combines Java and Spring Boot with Docker containerization, CI/CD pipelines using GitHub Actions, and cloud deployments on AWS EC2 with Nginx and HTTPS. I am further expanding my expertise in infrastructure automation with Terraform, continuous integration with Jenkins, container orchestration using Kubernetes, and system monitoring and observability with Prometheus and Grafana.

Education

Bachelor of Science in Computer Science & Engineering
Southeast University
CGPA: 3.99/4.00 | **Ranked 1st in Batch**

Higher Secondary Certificate (HSC)
Noakhali Science & Commerce College
GPA: 5.00/5.00

Secondary School Certificate (SSC)
Sonapur Ali Akbar High School
GPA: 5.00/5.00

Skills

Programming Language — C, C++, Java, Python
Version Control & CI/CD — Git, GitHub, GitHub Actions, Jenkins
Databases — MongoDB, MySQL, PostgreSQL
Frameworks & Technologies — Spring Boot, Spring Security, Spring Data JPA, Thymeleaf
Containerization & Orchestration — Docker, Docker Compose, Kubernetes
Cloud & Infrastructure Automation — AWS , Terraform
Operating Systems & Web Servers — Linux, Nginx
Monitoring & Observability — Prometheus, Grafana

Projects

Personal Cloud Infrastructure , *Built and managed a personal cloud server on AWS, integrating Docker, automated CI/CD pipelines, Nginx reverse proxy, HTTPS, and system monitoring with Prometheus and Grafana.*

EventFlow ,
An event management platform for discovering, organizing, and registering for events.

Food Mobo Chain,
A multi-role food ordering platform connecting customers, food sellers, and administrators.

Afsos Nama , *A student-focused platform for reflecting on semester experiences, identifying mistakes, and tracking personal improvement.*

Plant Disease Detection ,
A CNN based application for identifying plant diseases from leaf images.

Courses

CPTE — Certified Penetration Testing Engineer
Professional certification in penetration testing methodologies, vulnerability assessment, and security evaluation.
Certificate ID: 30038-178-102-0670

Applied Penetration Testing Engineer 04/2026 – 05/2026
Completed 87 hours of practical penetration testing training focused on hands-on cybersecurity and security assessment techniques.
Certificate ID: EDGE-CSE-CUET-DST-2026-P-5770

Publications

An Interpretable Framework for Early Lung Cancer Prediction Using Graph Fusion and Role Stability for Robust Feature Selection with TabFGT, *AusDM 2026, Sydney, Australia*
Authors: Safayet Ullah, Md. Zubayer Ahmad Shibly, Md. Jubayer Islam, Al-Amain, MD Masum Billah, Tarem Ahmed, MM Mahbubul Syeed

Explainable Network Intrusion Detection with Causal Effect-Aware Feature Encoding and BanditBoost NeuroForest, *FMLDS 2026, Kobe, Japan*
Authors: Safayet Ullah, Md. Zubayer Islam Shibly, Md. Jubayer Islam, Abdul Kadar Mohammad Masum

TabSymNN: An Explainable Transformer with Symmetry Regularization for Asthma Classification, *IEEE WIECON-ECE 2026, Dhaka, Banglades*
Authors: Safayet Ullah, Azizul Hakim Omor, Hussain Al Naeem, Shimul Dey Katha

An Explainable Stacking Ensemble Framework with Disagreement-Aware Feature Selection for Loan Approval Prediction , *IEEE TENSYMP 2026, Penang, Malaysia*
Authors: MZ Hossen, ***Safayet Ullah***, MZA Shibly, A Islam, KMM Uddin

Heat Waves in Bangladesh: Understanding the Threats and Finding Solution ,
Asia Pacific Journal of Energy and Environment
Authors: Md. Shelim Miah, ***Safayet Ullah***, Mehedi Hasan Siddique
